PUBLIC DATABASE COUNT

IMDb currently reports 41 Actor, 2 Additional Crew, 1 Writer, 2 Producer and 1 Production Department credits for James McMann. Public search results do not expose every behind-the-scenes title by name, so this master index names only credits tied to a specific title without guessing.

ARCHIVE NOTE

A secondary archival filmography lists All of Us, and a separate aggregator associates James with The Last Man on Earth under an unspecified category. Neither is promoted here as a confirmed acting credit because a reliable role-level or title-level record was not located.
